# PLAY FOUR GAMES.

Danville Will Meet Barton Heights in This City.

Danville, the city that was leading in the Virginia-Carolina Base-ball League, sends a nine here for four games with the Barton Height's aggregation of the Twin City League this week. The first Twin City League this week. The first game is played to-day and the next three will be in quick succession. On Saturday there will be two games between the Twin City League teams, so it can be seen that the fans will have an opportunity to witness all the ball they wish to this week.

seen that the fans will have an opportunity to witness all the ball they wish to this week.

Barton Heights was to have gone against a picked team from the Capital City League for three games this week, but these dates were cancelled yesterday and Danville signed. The visitors left Danville at twelve o'clock last night and arrived in the city this morning. If Barton Heights breaks even with the visiting ballologists it will be about all that the fans here will expect, for it, is said that the Danville boys are al old workers at the national game.

Brooks will be used in to-day's game and Hoskins will do the twirling the day afterwards. Leak, Crawford, Winston and Hulcher will be worked into gear if it becomes necessary. But the team that Pete Taylor is managing from Barton Heights is about as good one as can be found, and barring accident it will give the visitors a run for the money.

# HYDE REPLIES TO COTTON CHARGES By Richmond Auction Co., 1205 East Main Street.

Denies Indignantly That He Made Estimates Lower Than Reports Warranted.

IS STILL ILL IN LONDON

Expects to Return to America About October 1st-Gives Out Interview.

(By Associated Press.)

LONDON, August 21 .- John Hyde, former statistician of the United States Department of Agriculture, who, at present, is in London, has been under the care of a physician for several weeks, and is still prohibited by his physician from attending to business. To the Associated Press to-night, he said:

"I-have just seen for the first time the revised cotton acreage report, issued by the United States Department of Agriculture on July 26th. The crop estimating board reduces the official estimate of June 2d by more than 1,100,900 acres, and even goes so far as to say that I made the estimate lower than the reports received from official reporters employed by the bureau warranted. To this statethe bureau warranted. To this state, ment I give unqualified denial, and assert that the most trustworthy of the various sets of figures on which the report of June 2d was based af-forded the most ample warrant for my estimate.

the report of June 2d was based afforded the most ample warrant for my estimate.

"It is only by an entire disregard of the reports of county and township correspondents that the Department's acreage reports can be prevented from once more becoming the laughing stock of the world. When concerned only with the condition of the growing crop, except under special circumstances, the reports of county and township correspondents are not without value. When, however, these correspondents report either upon the acreage or upon the size of the crop in bales, their reports are absolutely worthless. For instance, the crop last year was estimated by township correspondents at less than 1,000,000 bales. Fallure on the part of the board to recognize the widely varying degrees of reliability which charactorized the reports of its different classes of correspondents will inevitably destroy the value of its reports for general statistical purposes."

of correspondents will inevitably destroy the value of its reports for general statistical purposes."

Mr. Hyde said that he gave this interview to the Associated Press against the earnest protest of his physician, and that he had forwarded an affidavit to Washington covering his connection with the cotton report. He said that he expected to return to America about October 1st.
